| Category | Customer Service and Customer Experience | Duration      | 5 Days                  |
| Base Fee | \$1,500 USD                              | Delivery Mode | Online / On-site Hybrid |

## Course Introduction

In today's data-driven business environment, understanding the health of your customers is no longer optional it's essential. Customer Health Scoring provides organizations with actionable insights into customer engagement, satisfaction, and retention. By systematically analyzing behavioral, transactional, and interactional data, businesses can proactively identify churn risks, drive up selling opportunities, and optimize customer lifecycle management. Customer Health Scoring: Design and Implementation Training Course equips professionals with the skills to design, implement, and leverage customer health scores for measurable growth.

Leveraging a combination of advanced analytics, predictive modeling, and real-world case studies, this training ensures participants can translate complex datasets into meaningful strategies. Participants will gain hands-on experience in designing scoring models, integrating them into business workflows, and using insights to enhance customer success, loyalty, and revenue generation. This course is perfect for organizations aiming to build a proactive, data-driven customer experience strategy that enhances retention, satisfaction, and long-term value.

## Programme Curriculum

### Customer Health Scoring: Design and Implementation Training Course

#### Introduction

In today's data-driven business environment, understanding the health of your customers is no longer optional it's essential. Customer Health Scoring provides organizations with actionable insights into customer engagement, satisfaction, and retention. By systematically analyzing behavioral, transactional, and interactional data, businesses can proactively identify churn risks, drive up selling opportunities, and optimize customer

lifecycle management. Customer Health Scoring: Design and Implementation Training Course equips professionals with the skills to design, implement, and leverage customer health scores for measurable growth.

Leveraging a combination of advanced analytics, predictive modeling, and real-world case studies, this training ensures participants can translate complex datasets into meaningful strategies. Participants will gain hands-on experience in designing scoring models, integrating them into business workflows, and using insights to enhance customer success, loyalty, and revenue generation. This course is perfect for organizations aiming to build a proactive, data-driven customer experience strategy that enhances retention, satisfaction, and long-term value.

### **Course Duration**

5 days

### **Course Objectives**

By the end of this training, participants will be able to:

1. Understand the principles of customer health scoring and its impact on retention strategies.
2. Analyze customer behavioral patterns using quantitative and qualitative metrics.
3. Design predictive scoring models tailored to specific business objectives.
4. Implement data-driven frameworks for monitoring customer engagement.
5. Identify churn risk factors and early warning signals effectively.
6. Leverage AI and machine learning techniques to optimize health scores.
7. Integrate health scores into CRM and customer success workflows.
8. Develop actionable dashboards for customer success managers.
9. Measure the ROI of customer health initiatives and reporting strategies.
10. Enhance customer segmentation for personalized engagement strategies.
11. Apply best practices from industry-leading case studies.
12. Implement real-time monitoring and predictive alerts for proactive action.
13. Drive cross-functional collaboration between sales, support, and success teams.

### **Target Audience**

1. Customer Success Managers
2. Account Managers
3. Product Managers
4. CRM and Data Analysts
5. Marketing Managers
6. Sales Operations Professionals
7. Business Intelligence Professionals
8. Customer Experience Leaders

### **Course Modules**

#### **Module 1: Introduction to Customer Health Scoring**

- Definition, benefits, and business impact of health scores
- Key metrics for assessing customer engagement
- Understanding churn prediction models
- Case Study: SaaS company improving retention by 20%
- Best practices in customer lifecycle analytics

## **Module 2: Data Collection & Integration**

- Identifying relevant data sources
- Data quality, cleansing, and enrichment strategies
- Integrating structured and unstructured data
- Case Study: Telecom company leveraging multi-source data
- Tools and platforms for data aggregation

## **Module 3: Designing Health Scoring Models**

- Selecting KPIs and weighting strategies
- Building scorecards and predictive models
- Balancing quantitative and qualitative metrics
- Case Study: E-commerce platform increasing engagement
- Aligning scoring with business objectives

## **Module 4: Advanced Analytics & Machine Learning**

- Predictive analytics for customer churn
- Machine learning algorithms for scoring
- Handling missing or sparse data
- Case Study: Subscription service predicting churn with ML
- Model validation and optimization techniques

## **Module 5: Dashboarding & Visualization**

- Designing intuitive dashboards for stakeholders
- KPI tracking and actionable insights
- Reporting formats for executives and managers
- Case Study: SaaS health score dashboards improving decision-making
- Integrating real-time alerts and notifications

## **Module 6: Customer Segmentation & Personalization**

- Segmenting customers based on risk and engagement
- Designing targeted interventions for high-risk customers
- Personalizing marketing and success strategies
- Case Study: Fintech company reducing churn with segmentation
- Measuring effectiveness of personalized campaigns

## **Module 7: Implementation & Integration**

- Integrating health scoring into CRM and automation tools
- Best practices for cross-functional adoption
- Workflow automation for proactive engagement
- Case Study: Enterprise software improving retention across teams
- Change management for successful implementation

## **Module 8: Continuous Improvement & ROI Measurement**

- Monitoring and refining health scoring models
- Evaluating the ROI of scoring initiatives

- Benchmarking against industry standards
- Case Study: SaaS company improving lifetime value
- Strategies for iterative improvement and scalability

## Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

## Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

## Tailor-Made Course

We also offer tailor-made courses based on your needs.

## Key Notes

- a. The participant must be conversant with English.
- b. Upon completion of training the participant will be issued with an Authorized Training Certificate
- c. Course duration is flexible and the contents can be modified to fit any number of days.
- d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.
- e. One-year post-training support Consultation and Coaching provided after the course.
- f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

## Upcoming Scheduled Sessions

| Start Date  | End Date    | Location | Price   |
|-------------|-------------|----------|---------|
| 21 Sep 2026 | 25 Sep 2026 | Online   | \$1,000 |

| Start Date  | End Date    | Location | Price   |
|-------------|-------------|----------|---------|
