

Dynamics 365 Business Central Training Course

Professional Development Training Course Outline

Category	Enterprise Resource Planning (ERP)	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

This specialized training program offers a deep dive into Microsoft Dynamics 365 Business Central (D365BC), the essential Cloud ERP solution for small and medium-sized enterprises (SMEs). In today's landscape of digital transformation, businesses require a unified, scalable platform to manage core processes. This course focuses on achieving financial agility, optimizing the supply chain, and leveraging AI-powered insights through practical, hands-on application. Participants will master the latest features, including Power Platform integration and the intuitive user experience, ensuring they can immediately drive operational efficiency and streamline business processes within their organization.

Dynamics 365 Business Central Training Course is designed for both functional and technical professionals aiming to become certified Functional Consultants (MB-800). It moves beyond basic software navigation to focus on advanced system configuration, data management, and using Business Central as a tool for strategic decision-making. By completing this course, you will acquire the expertise to implement, customize, and support a modern SaaS ERP solution, transforming your role into a key driver of business growth and competitive advantage in the Microsoft ecosystem.
