

Focus Group Discussions for M&E Training Course

Professional Development Training Course Outline

Category	Monitoring and Evaluation	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Focus Group Discussions (FGDs) are a critical qualitative method in Monitoring and Evaluation (M&E) that enable practitioners to gain in-depth insights into program outcomes, stakeholder perceptions, and community experiences. Focus Group Discussions for M&E Training Course provides a comprehensive framework for designing, facilitating, and analyzing FGDs with rigor and accuracy. Participants will explore best practices, ethical considerations, and practical facilitation techniques, ensuring that collected data is both reliable and actionable for evidence-based decision-making.

The course emphasizes interactive learning, combining theoretical foundations with hands-on exercises, real-life case studies, and role-play simulations. Trainees will acquire the skills to develop discussion guides, select participants, manage group dynamics, and synthesize qualitative data for reporting and policy formulation. By the end of the course, participants will be fully equipped to enhance program performance, measure impact, and inform strategic interventions through well-executed FGDs.

Course Objectives

By the end of this training, participants will be able to:

1. Understand the principles and importance of FGDs in M&E.
2. Design effective FGD protocols and discussion guides.
3. Apply participant selection and sampling strategies for FGDs.
4. Facilitate productive and inclusive focus group sessions.
5. Manage group dynamics and sensitive discussions ethically.
6. Collect high-quality qualitative data systematically.
7. Analyze and synthesize FGD findings for actionable insights.
8. Integrate FGD results into M&E reports and dashboards.
9. Utilize digital tools and software for qualitative analysis.
10. Address challenges and biases in qualitative data collection.
11. Apply cross-cultural considerations and ethical standards.
12. Enhance stakeholder engagement through participatory methods.
13. Design impact-driven recommendations based on FGD evidence.
