

# Physical Inventory Counting Training Course

## Professional Development Training Course Outline

|          |                                       |               |                         |
|----------|---------------------------------------|---------------|-------------------------|
| Category | Logistics and Supply Chain Management | Duration      | 5 Days                  |
| Base Fee | \$1,500 USD                           | Delivery Mode | Online / On-site Hybrid |

### Course Introduction

Accurate physical inventory counting is a cornerstone of effective supply chain management and operational excellence. Organizations that implement structured inventory counting protocols minimize discrepancies, reduce financial losses, and improve stock visibility. Physical Inventory Counting Training Course provides an in-depth exploration of physical inventory counting processes, focusing on the application of modern inventory management techniques, real-time auditing, and reconciliation practices. Participants will gain practical skills in planning, organizing, and executing physical counts with precision, ensuring compliance with internal controls and industry standards.

In addition, this training addresses common inventory challenges, such as stock misplacement, shrinkage, and reporting errors. Emphasis is placed on leveraging technology, including barcode scanning, RFID systems, and inventory management software, to enhance counting accuracy and efficiency. Participants will engage in interactive exercises, case studies, and hands-on activities, equipping them with actionable strategies to optimize inventory processes, strengthen accountability, and drive organizational productivity.

### Programme Curriculum

#### Physical Inventory Counting Training Course

##### Introduction

Accurate physical inventory counting is a cornerstone of effective supply chain management and operational excellence. Organizations that implement structured inventory counting protocols minimize discrepancies, reduce financial losses, and improve stock visibility. Physical Inventory Counting Training Course provides an in-depth exploration of physical inventory counting processes, focusing on the application of modern inventory management techniques, real-time auditing, and reconciliation practices. Participants will gain practical skills in planning, organizing, and executing physical counts with precision, ensuring compliance with internal controls

and industry standards.

In addition, this training addresses common inventory challenges, such as stock misplacement, shrinkage, and reporting errors. Emphasis is placed on leveraging technology, including barcode scanning, RFID systems, and inventory management software, to enhance counting accuracy and efficiency. Participants will engage in interactive exercises, case studies, and hands-on activities, equipping them with actionable strategies to optimize inventory processes, strengthen accountability, and drive organizational productivity.

### **Course Objectives**

1. Understand the fundamentals of physical inventory counting and its importance in supply chain operations.
2. Develop practical skills for planning and scheduling physical counts.
3. Implement accurate counting procedures to minimize discrepancies.
4. Apply modern inventory management tools and technologies effectively.
5. Conduct reconciliation and reporting of inventory variances.
6. Identify common inventory challenges and implement preventive measures.
7. Enhance accuracy in data recording and stock level maintenance.
8. Understand internal controls related to inventory management.
9. Develop teamwork strategies for efficient counting processes.
10. Analyze and interpret inventory reports for informed decision-making.
11. Apply risk management principles to inventory counting.
12. Improve organizational compliance with auditing standards.
13. Utilize case studies to solve real-world inventory counting issues.

### **Organizational Benefits**

- Reduction in inventory discrepancies and losses
- Improved stock visibility and management accuracy
- Enhanced operational efficiency and productivity
- Strengthened internal controls and compliance
- Better decision-making through accurate inventory reporting
- Minimized stock-outs and overstock situations
- Enhanced employee competency in inventory processes
- Optimized resource allocation for counting operations
- Increased accountability in inventory handling

- Improved customer satisfaction through timely product availability

### **Target Audiences**

1. Inventory and warehouse managers
2. Supply chain and logistics professionals
3. Finance and accounting personnel responsible for stock control
4. Procurement officers
5. Retail operations staff
6. Quality assurance teams
7. Operations supervisors
8. Auditors and compliance officers

### **Course Duration: 5 days**

### **Course Modules**

#### **Module 1: Introduction to Physical Inventory Counting**

- Definition and scope of physical inventory counting
- Importance in supply chain and financial management
- Types of inventory counts (full, cycle, spot)
- Overview of counting tools and techniques
- Case Study: Inventory counting at a retail chain
- Hands-on activity: Counting simulation exercise

#### **Module 2: Planning and Scheduling Inventory Counts**

- Developing an inventory count schedule
- Assigning roles and responsibilities
- Prioritizing critical stock items
- Preparing inventory count sheets and templates
- Case Study: Planning a warehouse inventory audit
- Hands-on activity: Schedule development exercise

#### **Module 3: Inventory Counting Techniques**

- Manual counting methods
- Barcode and RFID-based counting

- Cycle counting strategies
- Spot-check techniques
- Case Study: Technology-driven inventory counting
- Hands-on activity: Simulated count exercise

#### **Module 4: Recording and Documentation**

- Data recording best practices
- Inventory count sheets and digital logs
- Preventing double-counting and errors
- Reporting discrepancies
- Case Study: Documentation errors and mitigation
- Hands-on activity: Data entry practice

#### **Module 5: Reconciliation and Variance Analysis**

- Identifying discrepancies between physical and recorded stock
- Investigating causes of variance
- Adjusting records accurately
- Reporting findings to management
- Case Study: Variance analysis in a distribution center
- Hands-on activity: Reconciliation exercise

#### **Module 6: Internal Controls in Inventory Counting**

- Segregation of duties
- Approval and authorization procedures
- Audit trails and compliance requirements
- Risk mitigation strategies
- Case Study: Internal control failure in inventory management
- Hands-on activity: Control checklist exercise

#### **Module 7: Technology Integration in Inventory Counting**

- Inventory management software
- Mobile scanning devices and RFID systems
- Automation and reporting features

- Benefits and limitations of technology adoption
- Case Study: Successful digital inventory implementation
- Hands-on activity: Software demonstration exercise

### **Module 8: Best Practices and Continuous Improvement**

- Strategies for reducing errors and shrinkage
- Continuous improvement frameworks
- Employee training and engagement
- Measuring counting efficiency and accuracy
- Case Study: Continuous improvement in inventory operations
- Hands-on activity: Developing improvement action plans

### **Training Methodology**

- Interactive lectures and presentations
- Hands-on counting simulations
- Case study analysis and group discussions
- Role-playing for practical scenario resolution
- Use of technology and software tools for exercises
- Question-and-answer sessions to reinforce learning

### **Register as a group from 3 participants for a Discount**

Send us an email: [info@fineskilltrainingcenter.org](mailto:info@fineskilltrainingcenter.org) or call +254769199797

### **Certification**

*Upon successful completion of this training, participants will be issued with a globally- recognized certificate.*

### **Tailor-Made Course**

*We also offer tailor-made courses based on your needs.*

### **Key Notes**

- a. The participant must be conversant with English.
- b. Upon completion of training the participant will be issued with an Authorized Training Certificate
- c. Course duration is flexible and the contents can be modified to fit any number of days.
- d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

- e. One-year post-training support Consultation and Coaching provided after the course.
- f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

## Upcoming Scheduled Sessions

| Start Date  | End Date    | Location | Price   |
|-------------|-------------|----------|---------|
| 21 Sep 2026 | 25 Sep 2026 | Online   | \$1,000 |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$1,500 |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$0     |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$0     |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$0     |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$0     |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$0     |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$0     |
