

PPP Project Packaging Training Course

Professional Development Training Course Outline

Category	General Training	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Public-Private Partnerships Project Packaging Training Course provides a comprehensive and practical framework for developing, structuring, and packaging bankable Public-Private Partnerships projects for successful investment and implementation. The course examines project identification, feasibility assessment, commercial structuring, financial modelling, risk allocation, value-for-money analysis, procurement strategy, transaction advisory, legal frameworks, stakeholder engagement, and investment readiness. Participants will gain practical knowledge of transforming infrastructure and public-service concepts into commercially viable Public-Private Partnerships projects that attract private-sector participation, development finance, institutional investment, and government support.

The course emphasizes strategic project preparation, investment-grade documentation, financial sustainability, project bankability, risk mitigation, market sounding, procurement readiness, and effective transaction structuring. Through practical exercises and global case studies, participants will examine how successful Public-Private Partnerships projects are packaged across transport, energy, water, healthcare, social infrastructure, and urban development sectors. The training equips professionals with the skills required to develop compelling project information memoranda, structure concession arrangements, strengthen investor confidence, and prepare projects for competitive procurement and financial close.

Programme Curriculum

Public-Private Partnerships Project Packaging Training Course

Introduction

Public-Private Partnerships Project Packaging Training Course provides a comprehensive and practical framework for developing, structuring, and packaging bankable Public-Private Partnerships projects for successful investment and implementation. The course examines project identification, feasibility assessment, commercial structuring, financial modelling, risk allocation, value-for-money analysis, procurement strategy,

transaction advisory, legal frameworks, stakeholder engagement, and investment readiness. Participants will gain practical knowledge of transforming infrastructure and public-service concepts into commercially viable Public-Private Partnerships projects that attract private-sector participation, development finance, institutional investment, and government support.

The course emphasizes strategic project preparation, investment-grade documentation, financial sustainability, project bankability, risk mitigation, market sounding, procurement readiness, and effective transaction structuring. Through practical exercises and global case studies, participants will examine how successful Public-Private Partnerships projects are packaged across transport, energy, water, healthcare, social infrastructure, and urban development sectors. The training equips professionals with the skills required to develop compelling project information memoranda, structure concession arrangements, strengthen investor confidence, and prepare projects for competitive procurement and financial close.

Course Objectives

By the end of the course, participants will be able to:

1. Develop bankable and investment-ready Public-Private Partnerships project concepts.
2. Apply advanced project screening, prioritization, and feasibility assessment techniques.
3. Structure commercially viable Public-Private Partnerships transactions.
4. Develop effective financial models and investment appraisal frameworks.
5. Apply value-for-money and affordability assessment methodologies.
6. Design balanced risk allocation and mitigation frameworks.
7. Prepare investor-ready project information and transaction documentation.
8. Develop strategic procurement and market engagement approaches.
9. Strengthen project bankability and private-sector investment attractiveness.
10. Integrate environmental, social, governance, and sustainability considerations.
11. Apply legal, institutional, and regulatory requirements to project packaging.
12. Manage stakeholder engagement and market sounding effectively.
13. Prepare Public-Private Partnerships projects for procurement, financing, and financial close.

Organizational Benefits

- Improved quality and bankability of infrastructure project pipelines
- Stronger private-sector and investor participation
- Better allocation and management of project risks
- Enhanced value-for-money and fiscal sustainability
- Faster progression from project concept to procurement
- Improved quality of feasibility studies and transaction documents
- Stronger institutional capacity for Public-Private Partnerships delivery
- Enhanced transparency and procurement readiness

Target Audiences

1. Public-Private Partnerships unit professionals and infrastructure specialists
2. Government policymakers and senior public-sector officials
3. Project developers and private-sector investors

4. Infrastructure finance and investment professionals
5. Project finance, banking, and financial advisory professionals
6. Legal, procurement, and transaction advisory professionals
7. Engineering, construction, and infrastructure management professionals
8. Development finance institutions and international development professionals

Course Duration: 5 days

Course Modules

Module 1: Public-Private Partnerships Project Packaging Fundamentals

- Principles and lifecycle of Public-Private Partnerships project packaging
