

Promotional Demand Planning Training Course

Professional Development Training Course Outline

Category	Logistics and Supply Chain Management	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Promotional demand planning is a critical component in modern supply chain management, enabling organizations to effectively forecast, allocate, and optimize resources during promotional campaigns. With growing consumer expectations and competitive market pressures, companies need precise strategies to predict promotional demand, reduce stockouts, minimize excess inventory, and maximize sales opportunities. Promotional Demand Planning Training Course provides participants with a comprehensive understanding of promotional demand planning, integrating advanced forecasting techniques, analytics-driven insights, and cross-functional collaboration strategies.

Participants will gain practical skills in aligning sales, marketing, and supply chain functions to ensure promotional success. The course emphasizes the use of statistical modeling, historical sales analysis, and real-time data to enhance forecast accuracy and responsiveness. By the end of the course, learners will be equipped to implement actionable plans, optimize promotional strategies, and contribute to measurable organizational growth.

Programme Curriculum

Promotional Demand Planning Training Course

Introduction

Promotional demand planning is a critical component in modern supply chain management, enabling organizations to effectively forecast, allocate, and optimize resources during promotional campaigns. With growing consumer expectations and competitive market pressures, companies need precise strategies to predict promotional demand, reduce stockouts, minimize excess inventory, and maximize sales opportunities. Promotional Demand Planning Training Course provides participants with a comprehensive understanding of promotional demand planning, integrating advanced forecasting techniques, analytics-driven insights, and

cross-functional collaboration strategies.

Participants will gain practical skills in aligning sales, marketing, and supply chain functions to ensure promotional success. The course emphasizes the use of statistical modeling, historical sales analysis, and real-time data to enhance forecast accuracy and responsiveness. By the end of the course, learners will be equipped to implement actionable plans, optimize promotional strategies, and contribute to measurable organizational growth.

Course Objectives

By the end of this course, participants will be able to:

1. Understand the fundamentals of promotional demand planning and its role in supply chain management.
2. Apply advanced forecasting techniques for promotional events.
3. Analyze historical sales data to improve promotional planning accuracy.
4. Integrate marketing and sales inputs into demand forecasts.
5. Use statistical tools to measure forecast accuracy and bias.
6. Optimize inventory levels to minimize stockouts and overstock situations.
7. Implement effective S&OP (Sales & Operations Planning) for promotional campaigns.
8. Collaborate across departments to ensure coordinated promotional execution.
9. Develop KPI frameworks to monitor promotional performance.
10. Apply demand sensing techniques to adjust forecasts in real time.
11. Leverage technology platforms for automated demand planning.
12. Manage risk and uncertainty in promotional campaigns.
13. Conduct post-promotion analysis to enhance future planning.

Organizational Benefits

1. Reduced stockouts during promotions.
2. Minimized excess inventory and associated costs.
3. Improved collaboration between sales, marketing, and supply chain teams.
4. Enhanced forecast accuracy and operational efficiency.
5. Better alignment of promotional strategies with organizational goals.
6. Increased customer satisfaction and loyalty.
7. Optimized resource allocation for promotional campaigns.
8. Informed decision-making using analytics-driven insights.
9. Strengthened ability to respond to market changes rapidly.

10. Measurable improvement in promotional ROI.

Target Audiences
