### Course Introduction

Reinsurance Claims Management & Facultative Placements is a crucial niche in the global insurance ecosystem. Training Course on Reinsurance Claims Management & Facultative Placements is designed to equip insurance professionals, brokers, underwriters, and risk managers with comprehensive knowledge and cutting-edge tools to navigate the complex world of reinsurance claims processing and facultative reinsurance placement. With increasing risk exposures and evolving regulatory standards, mastering these areas has become essential for professionals aiming to reduce claims leakage, improve recoveries, and enhance operational efficiencies.

This advanced-level course integrates real-world case studies, interactive learning techniques, and industry-leading insights to develop technical and practical expertise. Participants will gain critical skills in claims negotiation, treaty wording interpretation, facultative program structuring, compliance, and dispute resolution. With a growing demand for specialized reinsurance knowledge due to market volatility and catastrophic losses, this course ensures participants stay ahead of the curve.

### Programme Curriculum

#### Reinsurance Claims Management and Facultative Placements Training

##### Introduction

Reinsurance Claims Management & Facultative Placements is a crucial niche in the global insurance ecosystem. Reinsurance Claims Management and Facultative Placements Training equip insurance professionals, brokers, underwriters, and risk managers with comprehensive knowledge and cutting-edge tools to navigate the complex world of reinsurance claims processing and facultative reinsurance placement. With increasing risk exposures and evolving regulatory standards, mastering these areas has become essential for professionals aiming to reduce claims leakage, improve recoveries, and enhance operational efficiencies.

This advanced-level course integrates real-world case studies, interactive learning techniques, and industry-leading insights to develop technical and practical expertise. Participants will gain critical skills in claims negotiation, treaty wording interpretation, facultative program structuring, compliance, and dispute resolution. With a growing demand for specialized reinsurance knowledge due to market volatility and catastrophic losses, this course ensures participants stay ahead of the curve.

- Overview of reinsurance structures
- Claims lifecycle from notification to recovery
- Proportional vs non-proportional claims
- Roles of cedent, reinsurer, and broker
- Key terminologies in claims handling
- **Case Study: Treaty vs Facultative Claims Recovery Timeline**

#### **Module 2: Treaty Wordings and Claims Implications**

- Key clauses affecting claims
- Aggregation and clash cover wording
- Exclusions and limitations
- Trigger events and claim definitions
- Ambiguity in interpretation
- **Case Study: Clash Cover Dispute Resolution**

### **Module 3: Facultative Reinsurance Placement Process**

- Steps in facultative placement
- Quotation and negotiation strategies
- Facultative slip and binder management
- Capacity matching and pricing
- Managing multi-territory risks
- **Case Study: Global Industrial Risk Facultative Structure**

### **Module 4: Claims Notification and Documentation Standards**

- Early notification protocols
- Critical claim documents checklist
- Evidence of loss and reserves
- Reinsurer communication best practices
- Documentation audit trail
- **Case Study: Missing Documentation in a Multi-Party Claim**

### **Module 5: Claims Audit and Operational Risk**

- Internal audit requirements
- Reinsurance audit scope
- Key audit findings and remediation
- Data integrity and loss reporting
- Governance and internal controls
- **Case Study: Audit Discovery in Delayed Catastrophe Claim**

### **Module 6: Facultative Claims Handling Techniques**

- Direct vs indirect placement handling
- Customized settlement strategies
- Claim control clauses
- Direct settlement vs net of loss
- Coverage litigation scenarios
- **Case Study: Facultative Loss Sharing in Energy Sector**

### **Module 7: Reserving and Payment Protocols**

- Loss reserving methodologies
- Payment tracking systems
- Recoverable vs non-recoverable amounts
- Cash call vs final settlement
- Delay interest claims
- **Case Study: Reserving Errors in a Treaty Loss**

### **Module 8: Reinsurance Claims Negotiation Skills**

- Building effective arguments
- Cross-jurisdictional negotiations
- Documentation to support positions
- Claims advocacy techniques
- Communication with multiple reinsurers
- **Case Study: Multi-Reinsurer Negotiation Strategy**

### **Module 9: Catastrophic and Complex Claims**

- CAT modeling and claim estimation

- Large loss coordination
- Event coding and tracking
- Multi-year, multi-contract claim management
- Reinstatement premiums
- **Case Study: Hurricane Loss across Multiple Treaties**

#### **Module 10: Legal & Regulatory Framework**

- Key global regulations (Solvency II, IFRS 17, etc.)
- Claims compliance requirements
- Cross-border legal challenges
- Jurisdictional limitations
- Arbitration and litigation paths
- **Case Study: Legal Dispute in Facultative Non-Disclosure**

#### **Module 11: Retrocession and Recoveries**

- Structure and types of retrocession
- Role in capital management
- Recovery process for retro layers
- Managing retro documentation
- Broker coordination for retro claims
- **Case Study: Retrocession Claim Dispute over Retention Layer**

#### **Module 12: Reinsurance Accounting in Claims**

- Accounting for recoverables
- Ledger reconciliation
- Reporting obligations
- Treatment under IFRS/GAAP
- Premium adjustment impact
- **Case Study: Accounting Error in Facultative Premium Refund**

#### **Module 13: Emerging Technologies in Claims Processing**

- Automation tools and AI in claims
- Predictive analytics in reserving
- Blockchain for claims ledger
- InsurTech platforms
- Cybersecurity in data handling
- **Case Study: AI-Powered Claims Review Platform**

#### **Module 14: Claims Reporting and Stakeholder Communication**

- Internal vs external reporting
- Templates and dashboards
- Escalation processes
- Reinsurer expectation management
- External audit preparedness
- **Case Study: Crisis Communication in Claims Mismanagement**

#### **Module 15: Final Project and Capstone Simulation**

- Hands-on claims simulation
- Facultative pricing model development
- Claims negotiation role-play

- Drafting audit reports
- Peer feedback and review
- **Case Study: Simulated Global Event with Layered Reinsurance**

### Training Methodology

- Interactive lectures and breakout discussions
- Practical group exercises and role-play simulations
- Real-world case study analysis and debriefs
- Scenario-based facultative placement planning
- Access to templates, tools, and industry checklists
- End-of-module quizzes and certification assessment

### Register as a group from 3 participants for a Discount
