Course Modules

Module 1: Introduction to AI in Marketing

- Define AI and its relevance in digital marketing
- Understand the evolution of marketing technology
- Benefits of AI in modern marketing strategies
- Key concepts: automation, personalization, and prediction
- Overview of AI tools in the industry

Module 2: Understanding Customer Data

- Types and sources of customer data
- Data collection techniques
- Customer data platforms (CDPs)
- GDPR and ethical data use
- Structuring data for AI use

Module 3: Customer Segmentation Using AI

- Basics of customer segmentation
- AI-based clustering methods
- Behavioral vs. demographic segmentation
- Real-world segmentation tools
- Case studies of AI segmentation

Module 4: Predictive Analytics for Marketing

- Forecasting customer actions
- Tools for predictive modeling
- Creating predictive customer journeys
- Enhancing sales funnels
- Best practices in analytics

Module 5: Personalization Strategies with AI

- AI-driven product recommendations
- Dynamic content personalization
- Omnichannel personalization tactics
- Tools like Dynamic Yield and Segment
- Real-life personalization examples

Module 6: AI in Email Marketing

- Smart subject line generation
- Audience targeting with AI
- A/B testing with machine learning
- Automating follow-up sequences
- Email personalization at scale

Module 7: AI-Powered Content Creation

- Tools like Jasper and Copy.ai
- Natural Language Processing in content
- Visual content automation
- Content performance analysis
- Voice search optimization

Module 8: Real-Time Customer Interaction

- Role of chatbots and live chat AI
- Voice assistants in marketing
- Customer support automation
- 24/7 engagement strategies
- Feedback loops in real-time

Module 9: Machine Learning in Customer Behavior Analysis

- Building predictive models
- Behavior-triggered marketing
- Funnel optimization using ML
- Lifetime value prediction
- Retention risk analysis

Module 10: AI in Social Media Marketing

- AI for sentiment analysis
- Smart scheduling tools
- Influencer selection using AI
- Social listening platforms
- Performance tracking

Module 11: ROI Measurement Using AI

- Attribution modeling
- Automated campaign reporting
- Performance dashboards
- Customer journey mapping
- KPI forecasting with AI

Module 12: Ethical AI & Data Privacy

- AI bias and its consequences
- Ethical data sourcing
- Consumer trust and transparency
- Compliance with global standards
- Risk mitigation strategies

Module 13: Chatbots and Conversational Marketing

- Building smart bots
- Scripts vs. NLP-based bots
- Multilingual customer service
- Funnel integration
- Case study: Messenger bots

Module 14: AI Tools and Platforms

- Overview of leading AI marketing tools

- CRM integration with AI
- API-driven AI platforms
- Tool comparison matrix
- Demo and walkthroughs

Module 15: The Future of AI in Marketing

- Upcoming AI trends
- AI and the metaverse
- Hyper-personalization
- Autonomous campaigns
- Preparing for Web 4.0

Training Development

- **Video Lectures:** Pre-recorded lessons deliver core concepts and foundational knowledge in a flexible, self-paced format.
- **Hands-On Projects:** Learners apply what they've learned by building and analyzing AI-driven campaigns using real tools.
- **Live Webinars:** Real-time sessions with instructors and industry experts provide deeper insights and live demonstrations.
- **Interactive Quizzes:** Short assessments reinforce learning and help learners gauge their understanding of key concepts.
- **Real-World Case Studies:** Practical examples highlight how AI is used in actual marketing and campaign scenarios.
- **Personalized Feedback:** Instructors offer individual feedback on assignments and projects to support growth and improvement.
- **Peer Collaboration:** Learners engage in team activities and discussions to share ideas, solve problems, and enhance learning outcomes.
- **Optional: Post-Training Resources:** Continued access to tools, materials, and community forums supports long-term skill retention and development.
