

# Training course on Automated Guest Service Systems

## Professional Development Training Course Outline

|                 |                         |                      |                         |
|-----------------|-------------------------|----------------------|-------------------------|
| <b>Category</b> | Tourism and hospitality | <b>Duration</b>      | 10 Days                 |
| <b>Base Fee</b> | \$3,000 USD             | <b>Delivery Mode</b> | Online / On-site Hybrid |

## Course Introduction

In the evolving landscape of hospitality, where guest expectations for seamless, instant, and personalized service are continuously rising, Automated Guest Service Systems are no longer a luxury but a strategic necessity. From AI-powered chatbots and voice assistants handling routine inquiries to mobile check-in/check-out and robotic concierges, these technologies are transforming how hotels, resorts, and tourism businesses deliver efficient, consistent, and convenient guest experiences 24/7. Mastering this discipline demands a blend of technological understanding, operational acumen, and a deep guest-centric approach to identify suitable automation opportunities, implement intelligent solutions, and seamlessly integrate them into the guest journey. For operations managers, IT directors, front office managers, and innovators, the ability to strategically leverage automation is paramount for optimizing staff productivity, reducing operational costs, enhancing guest satisfaction, and ensuring a competitive edge in the digital age. Failure to embrace automated guest service systems can lead to inefficient operations, frustrated guests, and a struggle to meet the demands of modern travelers. Training Course on Automated Guest Service Systems is meticulously designed to equip aspiring and current hospitality professionals, operations managers, IT directors, front office managers, and general managers with the advanced theoretical insights and intensive practical tools necessary to excel in Automated Guest Service Systems. We will delve into sophisticated methodologies for identifying guest service bottlenecks suitable for automation, master the intricacies of implementing chatbots, voice assistants, and mobile self-service solutions, and explore cutting-edge approaches to data integration, performance measurement, and change management. A significant focus will be placed on understanding diverse automation applications, evaluating return on investment (ROI), ensuring robust cybersecurity and data privacy, and managing the human-technology interface effectively. Furthermore, the course will cover essential aspects of vendor selection, system integration, and adapting to emerging technological trends. By integrating industry best practices, analyzing real-world successful automated guest service deployments in hospitality, and engaging in hands-on application scenario planning, attendees will develop the strategic acumen to confidently lead digital transformation initiatives, foster unparalleled operational efficiency and guest satisfaction, and secure their position as indispensable assets in the forefront of hospitality innovation and service excellence.

## Training Course on Automated Guest Service Systems

### Introduction

In the evolving landscape of hospitality, where guest expectations for seamless, instant, and personalized service are continuously rising, **Automated Guest Service Systems** are no longer a luxury but a strategic necessity. From AI-powered chatbots and voice assistants handling routine inquiries to mobile check-in/check-out and robotic concierges, these technologies are transforming how hotels, resorts, and tourism businesses deliver efficient, consistent, and convenient guest experiences 24/7. Mastering this discipline demands a blend of technological understanding, operational acumen, and a deep guest-centric approach to identify suitable automation opportunities, implement intelligent solutions, and seamlessly integrate them into the guest journey. For operations managers, IT directors, front office managers, and innovators, the ability to strategically leverage automation is paramount for optimizing staff productivity, reducing operational costs, enhancing guest satisfaction, and ensuring a competitive edge in the digital age. Failure to embrace automated guest service systems can lead to inefficient operations, frustrated guests, and a struggle to meet the demands of modern travelers.

**Training Course on Automated Guest Service Systems** is meticulously designed to equip aspiring and current hospitality professionals, operations managers, IT directors, front office managers, and general managers with the advanced theoretical insights and intensive practical tools necessary to excel in **Automated Guest Service Systems**. We will delve into sophisticated methodologies for **identifying guest service bottlenecks suitable for automation**, master the intricacies of **implementing chatbots, voice assistants, and mobile self-service solutions**, and explore cutting-edge approaches to **data integration, performance measurement, and change management**. A significant focus will be placed on understanding diverse automation applications, evaluating return on investment (ROI), ensuring robust cybersecurity and data privacy, and managing the human-technology interface effectively. Furthermore, the course will cover essential aspects of vendor selection, system integration, and adapting to emerging technological trends. By integrating industry best practices, analyzing real-world successful automated guest service deployments in hospitality, and engaging in hands-on application scenario planning, attendees will develop the strategic acumen to confidently lead digital transformation initiatives, foster unparalleled **operational efficiency and guest satisfaction**, and secure their position as indispensable assets in the forefront of **hospitality innovation and service excellence**.

### Course Objectives

Upon completion of this course, participants will be able to:

1. Analyze the fundamental principles and strategic importance of **Automated Guest Service Systems** in hospitality.
2. Understand the diverse **types of automation technologies** applicable to guest services (AI, robotics, mobile).
3. Master methodologies for **identifying guest service pain points and opportunities** for automation.
4. Develop expertise in planning and implementing **AI-powered chatbots and virtual assistants** for guest interactions.
5. Formulate comprehensive strategies for deploying **mobile self-service solutions** (check-in/out, room keys, requests).

6. Comprehend the importance of **data integration, personalization, and cybersecurity** for automated systems.
7. Apply principles of **change management and employee collaboration** with automation.
8. Evaluate the **Return on Investment (ROI) and cost-benefit analysis** of automated guest service systems.
9. Develop effective strategies for **enhancing guest experience and satisfaction** through automation.
10. Explore the role of automation in **streamlining operational processes** and staff productivity.
11. Anticipate and adapt to **emerging trends and innovations** in automated guest services.
12. Design a comprehensive **Automated Guest Service System Implementation Plan** for a specific hospitality operation.
13. Position themselves as strategic leaders capable of driving **digital transformation and service excellence** in hospitality.

## Target Audience

This course is designed for professionals and aspiring individuals seeking to implement and manage automated guest service systems in hospitality:

1. **Front Office Managers & Directors:** Leading the adoption of automation for guest interactions.
2. **Operations Managers & General Managers:** Driving efficiency and service quality through technology.
3. **IT Directors & Innovation Leads in Hospitality:** Implementing and managing automated systems.
4. **Guest Relations Managers:** Enhancing guest satisfaction through seamless service.
5. **E-commerce Managers:** Integrating automated solutions into online booking flows.
6. **Revenue Managers:** Leveraging automation for upsell opportunities.
7. **Customer Service Professionals:** In the hospitality or tech sectors.
8. **Hospitality & Tourism Students:** Focused on innovation and guest experience.

**Course Duration: 10 Days**

## Course Modules

### Module 1: Introduction to Automated Guest Service Systems

- Defining Automated Guest Service: Technologies, Benefits, and Scope.
- The Driving Forces: Guest Expectations, Operational Efficiency, Cost Savings.
- Overview of Key Automation Applications Across the Guest Journey.
- Understanding the Balance Between Automation and Human Touch.
- Case Studies of Leading Hotels Leveraging Automation.

### Module 2: AI-Powered Chatbots and Virtual Assistants

- Understanding Conversational AI and Natural Language Processing (NLP).
- Designing and Implementing Chatbots for Pre-Arrival, In-Stay, and Post-Stay Inquiries.
- Voice Assistants in Guest Rooms (e.g., Alexa, Google Assistant) for Service Requests.
- Routing Complex Queries to Human Staff.
- Measuring Chatbot Performance and Guest Satisfaction.

### Module 3: Mobile Self-Service Solutions

- Mobile Check-in/Check-out and Digital Room Keys.
- In-App Guest Request Management (Housekeeping, Maintenance).
- Mobile Ordering for Room Service and F&B.

- Personalized Mobile Notifications and Offers.
- The Role of Mobile Apps in the Automated Guest Journey.

#### **Module 4: Kiosks, Smart Displays, and Interactive Digital Signage**

- Automated Check-in/Check-out Kiosks in Lobbies.
- Interactive Digital Signage for Information and Wayfinding.
- Self-Service Ordering Kiosks in Restaurants and Bars.
- Virtual Concierge Services via Smart Displays.
- Integrating with Property Management Systems (PMS).

#### **Module 5: Robotics in Guest Service**

- Introduction to Service Robots (Delivery Robots, Bellhop Robots, Concierge Robots).
- Use Cases for Robotics in Guest-Facing Operations.
- Managing Human-Robot Collaboration.
- Safety Protocols and Operational Logistics for Robots.
- Evaluating the ROI and Guest Perception of Service Robots.

#### **Module 6: Data Integration and Personalization**

- Centralizing Guest Data from Automated Systems (Chatbots, Mobile Apps, Kiosks).
- Integrating Automated Systems with PMS, CRM, and Loyalty Programs.
- Leveraging Guest Preferences for Personalized Automated Responses and Offers.
- Ensuring Seamless Data Flow Across All Touchpoints.
- The Role of Predictive Analytics in Fueling Personalization.

#### **Module 7: Operational Efficiency and Staff Empowerment**

- Automating Repetitive Tasks to Free Up Staff for High-Value Interactions.
- Improving Response Times and Service Consistency.
- Streamlining Workflows and Reducing Operational Costs.
- Empowering Staff with Real-Time Guest Data and Automated Tools.
- Managing Staffing Levels with Increased Automation.

#### **Module 8: Cybersecurity and Data Privacy**

- Protecting Sensitive Guest Data Processed by Automated Systems.
- Cybersecurity Best Practices for IoT Devices and AI Platforms.
- Compliance with Data Privacy Regulations (GDPR, CCPA) for Automated Interactions.
- Secure Authentication and Access Controls.
- Incident Response Planning for Automated System Breaches.

#### **Module 9: Change Management and Employee Collaboration**

- Communicating the Benefits of Automation to Employees.
- Addressing Fears of Job Displacement and Reskilling Needs.
- Training Staff on How to Work with Automated Systems.
- Fostering a Culture of "Human-in-the-Loop" for Complex Issues.
- Employee Adoption Strategies for New Technologies.

#### **Module 10: Performance Measurement and ROI**

- Defining Key Metrics: Response Time, Resolution Rate, Guest Satisfaction, Cost Savings.
- Measuring the Impact of Automation on Staff Productivity and Efficiency.
- Calculating Return on Investment (ROI) for Automated Systems.
- A/B Testing Different Automation Solutions.
- Creating Comprehensive Performance Reports.

### **Module 11: Vendor Selection and Implementation**

- Evaluating Automated Guest Service System Providers.
- Key Features and Scalability Considerations.
- Integration Capabilities with Existing Hotel Technology Stack.
- Implementation Timelines and Budget Planning.
- Pilot Programs and Phased Rollouts.

### **Module 12: Future Trends and Innovations in Automated Guest Services**

- The Metaverse and Its Impact on Virtual Concierge Services.
- Hyper-Personalization with AI and Biometrics.
- Proactive Service with Predictive Analytics and AI.
- Seamless Voice-Activated Environments.
- The Evolution of the Human-Technology Interface in Hospitality Service.

### **Training Methodology**

- **Interactive Workshops:** Facilitated discussions, group exercises, and problem-solving activities.
- **Case Studies:** Real-world examples to illustrate successful community-based surveillance practices.
- **Role-Playing and Simulations:** Practice engaging communities in surveillance activities.
- **Expert Presentations:** Insights from experienced public health professionals and community leaders.
- **Group Projects:** Collaborative development of community surveillance plans.
- **Action Planning:** Development of personalized action plans for implementing community-based surveillance.
- **Digital Tools and Resources:** Utilization of online platforms for collaboration and learning.
- **Peer-to-Peer Learning:** Sharing experiences and insights on community engagement.
- **Post-Training Support:** Access to online forums, mentorship, and continued learning resources.

### **Register as a group from 3 participants for a Discount**

Send us an email: [info@fineskilltrainingcenter.org](mailto:info@fineskilltrainingcenter.org) or call +254769199797

### **Certification**

Upon successful completion of this training, participants will be issued with a globally recognized certificate.

### **Tailor-Made Course**

We also offer tailor-made courses based on your needs.

### **Key Notes**

- Participants must be conversant in English.
- Upon completion of training, participants will receive an Authorized Training Certificate.
- The course duration is flexible and can be modified to fit any number of days.

- Course fee includes facilitation, training materials, 2 coffee breaks, buffet lunch, and a Certificate upon successful completion.
- One-year post-training support, consultation, and coaching provided after the course.
- Payment should be made at least a week before the training commencement to Fineskill Training Center account, as indicated in the invoice, to enable better preparation.

## Upcoming Scheduled Sessions

| Start Date  | End Date    | Location | Price   |
|-------------|-------------|----------|---------|
| 21 Sep 2026 | 02 Oct 2026 | Online   | \$2,000 |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$3,000 |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
| 21 Sep 2026 | 02 Oct 2026 | Physical | \$0     |
