| Base Fee | \$1,500 USD                           | Delivery Mode | Online / On-site Hybrid |

### Course Introduction

Leadership in Technical and Vocational Education and Training (TVET) plays a critical role in advancing workforce readiness, industrial innovation, and sustainable development. With industries rapidly evolving due to Industry 4.0, digital transformation, and green technologies, TVET leaders must possess cutting-edge leadership competencies to drive institutional excellence, policy reforms, and skills development initiatives. Course on Leadership in Technical and Vocational Education and Training (TVET) empowers TVET managers, educators, and policymakers with advanced leadership strategies, innovation models, and change management skills tailored for the dynamic vocational education landscape.

The Leadership in TVET Training Course equips participants with the necessary tools to foster entrepreneurship, public-private partnerships, curriculum innovation, and sustainable skills ecosystems. Participants will explore global best practices, competency-based education, and strategies for aligning TVET programs with labor market needs. Through interactive modules, case studies, and practical simulations, participants will emerge as transformational leaders ready to influence national TVET agendas and contribute to inclusive and future-ready education systems.

### Programme Curriculum

#### Course on Leadership in Technical and Vocational Education and Training (TVET)

##### Introduction

Leadership in Technical and Vocational Education and Training (TVET) plays a critical role in advancing workforce readiness, industrial innovation, and sustainable development. With industries rapidly evolving due to Industry 4.0, digital transformation, and green technologies, TVET leaders must possess cutting-edge leadership competencies to drive institutional excellence, policy reforms, and skills development initiatives. Course on Leadership in Technical and Vocational Education and Training (TVET) empowers TVET managers, educators, and policymakers with advanced

leadership strategies, innovation models, and change management skills tailored for the dynamic vocational education landscape.

The Leadership in TVET Training Course equips participants with the necessary tools to foster entrepreneurship, public-private partnerships, curriculum innovation, and sustainable skills ecosystems. Participants will explore global best practices, competency-based education, and strategies for aligning TVET programs with labor market needs. Through interactive modules, case studies, and practical simulations, participants will emerge as transformational leaders ready to influence national TVET agendas and contribute to inclusive and future-ready education systems.
