### Course Introduction

Strategic partnerships and alliances are essential drivers of innovation, productivity, and sustainability in the agribusiness sector. In today’s highly interconnected global value chains, agribusiness enterprises must leverage collaborative models to unlock access to markets, share technological innovations, and build resilient supply chains. Training Course on Strategic Partnerships and Alliances in Agribusiness is designed to equip agribusiness professionals with the skills and strategic insight needed to develop, manage, and optimize partnerships across local and international agrifood systems. It integrates key topics such as value chain integration, public-private partnerships, digital transformation, and cooperative governance.

With rising consumer demand, climate change pressures, and technological disruptions shaping global agriculture, there is an urgent need for cross-sectoral collaboration. Through a blend of theoretical concepts and practical case studies, this course offers actionable frameworks to foster inclusive growth, enhance market access, and scale impact through alliance-building. Participants will leave with enhanced strategic thinking, negotiation capabilities, and implementation tools tailored to diverse agribusiness contexts.
